No. 33

SUBJECT: Ferenc FARKAS - Hungarian Military Organisation

Ref. Request No. 307 of 22.9.48.

In reply to above request:

- 1) As far as can be ascertained from our file index, the persons mentioned in the above request are not members of our organization. In order to make sure of this, inquiries have been made at the sub-organizations.
- 2) The following is being reported about the mentioned person:
AKA- KISSZABARNAKI
 - a) Ferenc FARKAS: known as the leader of the anti-communistic nationalistic Hungarian emigration.
 - b) **Dr. Károly KÉNY**: There is a report about him on hand, dated from the beginning of July 1948. According to this report, French Gaullistic circles have tried to contact the Hungarian National Emigration. The French had suggested to form semi-military police units out of young Hungarian emigrants in the French zones of Germany and Austria. According to this report, **KÉNY** pointed out that the Hungarian side would prefer to get in closer contact with the Americans. He is not very keen on the French proposition as he is afraid that the French suggestion would ultimately lead to nothing more than a sort of "Foreign legion". **KÉNY** himself is being described as an impressive and intelligent person, full of vitality. He plays an important role within the Hungarian emigration and is considered as the military exponent of a future Hungary. He is a convinced Anti-Bolshevik and has considerable connections abroad. The report states further that in 1946 he was sentenced to death by an American military court at SALZBURG for the execution of air-men carried out by his unit during the war. He was pardoned though and later on released from jail. The above-mentioned report was submitted to 23 under No. J-181 on 29.8.48.
 - c) **Imre K. KÉNYI**: living at BRISMAN. He is a Hungarian emigrant from 1945, organized Hungarian emigrants in Austria, is Anti-Bolshevik. He is in contact with the Slovakian emigration and is presumably co-partner of the CTC.
 - d) **Joseph FARKAS** (correctly **FARKAS**): The following report rightly **FARKAS** is on hand:
Under the leadership of the Hungarian Generalstabschef (colonel general - field marshal second class) FARKAS an anti-government was formed on 23. August 1947, the day of St. Stephen, when the Hungarian emigration went on a pilgrimage to ALL GETHEN. This anti-government commissioned the police general Josef FARKAS in

his capacity as the CO of the emigrated police force and constabulary, to build up a reliable organization. He formed up this organization, appointed sub-commanders and group leaders who in their turn further extended the organization.

In the name of the exile government the following regulations were issued :

- 1) Lists have to be compiled of all persons conspicuous of communistic tendencies.
- 2) The members were promised that they would receive a numbered pass and that their families would gradually be transferred to France.
- 3) At the end of March 1943 and currently later-on, the sub-commanders of this Hungarian organization received the following instruction :

Each member of the organization should try to emigrate as soon as possible to Southern France, with his family. Such persons should get in touch with the resp. French authorities at NIMICH. There they would get an International passport to FRETTEBURG/Breisgau and there they should report for agricultural work in Southern France.

When checking up if this re-settling scheme was working, it turned out that the French office at NIMICH did not know anything further about the project.
